

CASE STUDY

Office Move

[bu:st] handled project management for a major office relocation.

THE PROBLEM

The existing facility was:

- At its limit for capacity.
- Did not provide good working conditions.
- Was not scalable for future growth of staff.

THE SOLUTION

[bu:st] solved this client's problems by:

- Helping the company secure funds for a move to a bigger, much better suited office facility.
- Hiring a General Contractor and several other vendors to execute the move.
- Providing support in planning and taking over the steering function in the project.

THE RESULTS

Implementing the solution above resulted in:

- Successfully supporting the planning and execution of an office move for a new call center.
- Successfully hiring 30+ staff.
- Installing new IT equipment (hardware and software) and implementing a full system integration.
- Spearheading extensive renovation and construction activities for the new facilities.

The move was completed on time, with no downtime for the call center.

Are you ready to complete your projects and maximize your efficiency?
